

THERAPEUTIC MASSAGE

CERTIFICATE PROGRAM

Quarter Credit Hours Required = 60

The certificate program in Therapeutic Massage provides students with the physical and technical skills required by healthcare and personal service employers in a number of allied massage settings. These include rehabilitation clinics, fitness centers, medical offices, hospital departments, salons, and integrative medical centers like chiropractic offices and sports fitness establishments. Students are instructed in and expected to perform a wide range of massage techniques ranging from relaxation skills and stress management to Swedish massage.

As part of their course work, students will perform a minimum of 420 hours of lecture and 200 lab hours of supervised in-class bodywork, including 120 practicum hours taught in one-hour therapy sessions and conducted outside of class time. The total clock hours are a combination of the in-class and outside-class therapy sessions. Students will practice techniques learned in class on each other, while learning to perform a full body massage. Students will act as clients and therapists. This practice is required to improve and enhance the quality of bodywork. All sessions are supervised by a licensed therapist and held in the on-campus student clinic. A competency checklist is completed for every session and records are maintained by the program director.

Upon successful completion of this program, students should be able to

- demonstrate competence in delivering classical and contemporary massage techniques;
- identify the relationship of clinical massage techniques to physical therapy, sports medicine, and some nursing practices;
- discuss the medical and therapeutic value of clinical massage;
- explain the connection of muscle movement and body mechanics as they relate to total wellness;
- classify the usage of complimentary therapies like Shiatsu, Rolfing, Acupressure, and Aromatherapy;
- document strategies for successfully completing the major content areas of the national certification examination: NCTMB (National Certification Board for Therapeutic Massage and Bodywork); and
- coordinate a successful job search.
