

# THERAPEUTIC MASSAGE

## ASSOCIATE OF APPLIED SCIENCE

Quarter Credit Hours Required = 96

The Associate of Applied Science degree in Therapeutic Massage provides students with the physical and technical skills required by healthcare and personal service employers in a number of allied massage settings. These include rehabilitation clinics, fitness centers, medical offices, hospital departments, salons, and integrative medical centers like chiropractic offices and sports fitness establishments. This program also gives students the basic tools to consider self employment as a career choice. Students are instructed in and expected to perform a wide range of massage techniques ranging from relaxation skills and stress management to neuromuscular therapies. All bodywork courses will include students practicing techniques learned in class on each other, while learning to perform a full body massage. Students will act as client and therapists while in class. This practice is required to improve and enhance the quality of bodywork. Students will sharpen their employee skills, client/therapist relationship skills, and technical skills while performing massage and spa treatments on the general public in the Student Massage Clinic.

Upon successful completion of this program, students should be able to

- demonstrate competence in delivering classical and contemporary massage techniques;
- identify the relationship of clinical massage techniques to physical therapy, sports medicine, and some nursing practices;
- recognize the medical and therapeutic value of clinical massage;
- explain the connection of muscle movement and body mechanics as they relate to total wellness;
- classify the usage of complimentary therapies like Shiatsu, Rolfing, Acupressure, and Aromatherapy;
- document strategies for successfully completing the major content areas of the national certification examination: NCBTMB (National Certification Board for Therapeutic Massage and Bodywork); and
- coordinate a successful job search.

### FOUNDATION:

	<b>Quarter Credit Hours</b>
EDU 1010 Learning Framework .....	4
<b>Total Minimum Required Foundation Credits .....</b>	<b>4</b>

### AREA OF CONCENTRATION:

BIO 1120 Anatomy and Physiology: Body Structures .....	4
BIO 1130 Anatomy and Physiology: Organs and Systems .....	4
BIO 1310 Kinesiology: Axial Skeletal Muscles .....	4
BIO 1360 Kinesiology: Appendicular Skeletal Muscles .....	4
